

CUB SCOUT PACK 470

ST. COLUMBKILLE PARISH

2020 – 2021 COVID-19 SAFTY PLAN

The return to participation in activities is vital for the healthy physical, mental and spiritual well-being of young people. Pack 470 is excited to continue the Scouting program for the 2020-2021 school year while keeping everyone healthy and fully engaged. Because some families have elected to begin the school year in a virtual setting, we too will do our best to provide a hybrid (both in-person and virtual) program to ensure that all Scouts can participate.

For Scouts and Adult Leaders attending meetings in person the following protocols will be followed:

- ✓ Temperature checks will be administered before each meeting. If an individual has a temperature over 100.3 degrees, the individual will be sent home.
- ✓ Adult Leaders will take and record attendance at every meeting for contact tracing.
- ✓ Maintain 6' physical distance between others at all times and wash hands frequently.
- ✓ Avoid contact as much as possible, no handshakes, high-fives etc.
- ✓ Scouts and Adult Leaders who have a fever or are not feeling well should remain at home.
- ✓ Each person brings their own personal items, i.e. water bottles, snacks, scout books.
- ✓ No congregating in common areas: parking lots, hallways, lobby etc.
- ✓ Scouts are encouraged to wash their uniform as soon as they return to home.

OUTDOOR ACTIVITIES

Since many Scouting activities involve being outside in nature, we will do our best to utilize good weather in the fall and spring to achieve some of our outdoor requirements. Our rules for outdoor activities include:

- Facial coverings must be worn by all Scouts, Den Leaders, and family members.
- Parents and siblings attending meetings should maintain 6' between individuals/ families.

INDOOR ACTIVITIES

- Parents and siblings are not permitted to stay for indoor meetings unless a parent is assisting a Den Leader with an activity.
- Facial coverings must be worn by all Scouts, Den Leaders, and assisting parents.
- One person in the restroom at a time.
- The facility will be disinfected at all high touch point surfaces, door handles, counters, railings, restroom fixtures etc.
